STILL SHOOTING AT US!

(Carlisle Mercury)
A Carlisle young man drove two
miles alone before he discovered that
his sweetheart had fallen out of the
automobile. Love-making in that
city must lack some of the ardor
that characterizes it around Paris.—
Bourbon News.

Possibly that unfortunate occur-
rence really happened, but is it two
miles from the Stoner bridge to the
Paris warehouses? Those who have
endured the agonies of motoring
through Paris are well aware that
one may easily lose his religion
while bumping through the sink-
holes and shell craters which consti-
tute a Parisian's conception of a
street, but to lose one's best girl—
this is too much!

TEACHERS ARE CAUTIONED

There seems to have been a de-
cided diversion when agriculture
was the subject at the examinations
of the various teachers of the State,
since this matter has been brought
before the attention of the superin-
tendent of county schools, with the
suggestion that teachers be especial-
ly instructed to pay particular atten-
tion to this theme.

The averages of many are said to
have been cut down as a result of
their lack of interest in the technical
question of this subject. As a re-
sult there are agricultural examina-
tions being made in various coun-
ties with the result that the aver-
ages are much better since special
study has been indulged in. This is
said to be one of the most important
subjects connected with the examina-
tions in this State, and it is de-
sired that all instructors be "well
read" when it is concerned in any
manner, since this instruction is im-
perative at this period.

of about forty-five young people re-

HEAVY RAINS YESTERDAY

If "every bit added to what we
already have makes a little bit
more," then Bourbon county, or
most of the county, has added a con-
siderable portion of the world's
stock of moisture to what we have
already had on hand. Heavy rains
visited this section Wednesday and
yesterday, at times amounting al-
most to the proportions of a cloud-
burst. The streets were soon a
rushing mass of muddy water, and
the sewers were taxed to carry off
the surface water fast enough to
prevent them from clogging with
rubbish that had accumulated on
the streets.

The rains this week have been
scattered, visiting different localities
in the county on the same day.
Every section of the county has now
experienced reviving rains, doing a
vast amount of good.
